
EXCHANGE SERVICE

1. GENERAL

1.01 An exchange is a basic unit for the administration and furnishing of telephone service, and normally includes a city, town or village and adjacent parts. The territory served by an exchange is known as the exchange area or local-service area.
C In some cases, an exchange area may include two or more base rate areas.

1.02 When an exchange area contains one wire centre and more than one base rate area, then that wire centre is designated as the rate centre. When more than one wire centre and more than one base rate area exists in an exchange area, then only one of the wire centres is designated as the rate centre. The rate centre location is used for determining message toll rate distance and in determining local, inter-exchange and foreign-exchange distance charges.

1.03 Exchange service (or local service) is the furnishing of the service and equipment required for telephone communication between primary exchange services of the same exchange or local-service area, and between such service and the associated toll office.

2. PRIMARY EXCHANGE SERVICES

2.01 Primary exchange services are the basic services, which provide for the facilities essential to the service, according to their respective equipment specifications.

2.02 The following primary services are furnished in each exchange except where otherwise stated in this Tariff:

- C (a) Primary rate services, which consist of individual line service, including touch-tone. Business individual line service rates apply for connection of Key Telephone systems and PABX lines.
- (b) Message-rate services which consist of the following:
- (1) Semi-public telephone service
 - (2) Public telephone service

EXCHANGE SERVICE

C 2.03 Touch-tone is standard and is included in primary exchange service rates.

2.04 Rotary access service and dial telephones (500 type sets) will continue to be available for existing customers only (Grandfathered out as per 2.03 above).

Rotary access and dial telephones are no longer available for new installations.

2.05 Telephone sets are available to purchase at rates specified in our Competitive Terminal Price List.

2.06 Individual line service will be the basic grade of service for all customers

2.07 A sales promotion is being offered for the installation of a second residential line where operationally and technically feasible. Customers who subscribe to a second line will be provided one free jack and the Premise Visit and Premise Work Charges (Section 110) will be waived.

EXCHANGE SERVICE

3.03 MONTHLY RECURRING CHARGES

Monthly Recurring Charges (MRC's) for Primary Exchange Service are set out below which apply for each continuous calendar month of service. MRC's are prorated for fractional months of service except when a service period is less than one month, in which case a full months MRC applies. Business rates are for local business lines and private branch exchange (PABX) lines.

A
↓

	I/C	MRC
RESIDENTIAL	1100	30.75
BUSINESS	2100	61.50

Service Charges as specified in Section 110 apply for Primary Exchange Service and provide for a reasonable amount of Construction (up to the first 165 meters) to extend company Facilities. Beyond 165 meters, Construction Charges as described in Section 130 may apply.
