

## GENERAL TARIFF

SEMI-PUBLIC TELEPHONE SERVICE

---

**1. GENERAL**

- 1.01 Semi-public telephone service is a message-rate service furnished upon customer request, at the Company's discretion at the following types of locations:
- Where in the Company's opinion, a public service is not warranted.
  - Where there is a combination of use by the public and the customer, including locations at which the primary use is by the public for outgoing service.
  - Where there is collective use of the service by guests, members, business clients or similar occupants of the premises and a business flat rate or business message rate is unsuitable or prohibited by this Tariff.
- 1.02 Semi-public telephone service is furnished as main telephone service not as foreign exchange service.
- 1.03 Semi-Public Telephone Service may be provisioned for outgoing service only, if requested by the customer.

**2. SERVICE AND EQUIPMENT**

- 2.01 Semi-Public telephones are equipped with coin collecting devices, except when card reader telephones are used to provide the service, and service is furnished on an individual line.
- 2.02 Semi-Public Telephone Services are listed in the telephone directories except when equipped for outgoing only service.
- 2.03 The Company is responsible for the normal and routine maintenance and collection of coin from the Semi-Public telephone.
- 2.04 The Company retains ownership of the semi-public telephone and associated equipment.

**3. RATES AND CHARGES**

- 3.01 A Monthly Individual Line Business Rate, as stated in Section 100, applies for Semi-Public Telephone Service.
- 3.02 Regular rates apply for message toll service.
- 3.03 Calls originating at semi-public telephones are charged at \$0.50 each, except on sets technically incapable. **C**
- 3.04 A rate of 25¢ applies for each originating call on technically incapable sets until they are updated at which time the rate specified in 5.02 will apply. **N**
- 3.05 The rate specified in 3.03 applies for each originating call when the connection is established at the request of the calling party for collect, third party or calling card billing. This rate also applies for each originating call billed to a commercial credit card at a card reader pay telephone.
- 3.06 These rates do not apply for calls placed to 9-1-1.
- 3.07 Multi-Element Service charges for the installation of a semi-public telephone Service are those for business service and apply in accordance with Section 110 and will include the capital cost of the telephone set.
- 3.08 Semi-Public telephone receipts are not credited to the subscribers and are retained by the Company.
