INTER-EXCHANGE DISTANCE CHARGES - GENERAL

1. GENERAL

- 1.01 Inter-exchange distance charges or rentals apply to channels provided between exchanges or other rate centres.
- 1.02 The Company provides voice-grade, inter-exchange, channels with band-widths to carry telephone speech or its equivalent.

2. CHANNEL MEASUREMENT

2.01 Voice-Grade Channels

- (a) For a two-point channel, the distance charge or rental is based on the rate distance between wire centres or rate centres (Section 100-1.02) in the exchanges in which the customer's or lessee's telephones or service points are located as follows:

- (1) Adjoining exchanges - between wire centres in whose areas the telephones or service points are located except as in (2) below.

- (2) Non-adjoining exchanges - between the rate centres of exchanges, except for a channel provided between an exchange or rate centre of the Company and a rate centre of another telephone company in which case the measurement is made between the two rate centres via the point(s) of connection. The percentage of this measurement which lies in the Company's territory is then applied to the actual airline distance between the rate centres to determine the charge for the Company's portion.
